

Bridge The Gap

Your hardware and software work together. Shouldn't your solution providers do the same?
Now they do.

Bluewater Superyacht Bridge Services and Telemar Yachting have teamed up to deliver a total solution for all your marine technology needs. We're your one-stop source for hardware, software, data, communications, installation and support.

Your Total Navigation and Communication Solution

Comprehensive Electronic Navigation Solutions/CENS

Our customized navigation solution provides chart source flexibility for yachts offering enhanced awareness beyond what official charts provide. It makes perfect CENS.

Electronic Chart Display Information System/ECDIS

From hardware, software and data to training and education, our partnership provides you with what you need to know about ECDIS in a clear, concise and relevant manner.

Total Bridge Service Box

Our partnership allows us to deliver a complete suite of bridge services, from shore based contracts, radio surveys and satellite services to inventory management, electronic chart updates and managed bridge services. All our services are designed to meet flag state compliance and keep your operation running smoothly and efficiently.
